

Enterprise-Grade AI-Powered Contract Intelligence Platform

# PRODUCT DECK

End-to-End Contract Lifecycle Management

Trust, Partnership, Security.

# What is Doqzy

## Transforming Contracts into Strategic Business Advantage

Doqzy CLM is a next-generation enterprise platform that transforms contracts into strategic business assets. Through intelligent automation and centralized governance, it drives faster deal execution, strengthens compliance oversight, reduces legal and financial risk, and delivers complete lifecycle visibility — enabling leadership to scale with clarity, control, and confidence.

## Vision Statement

To become the global standard for intelligent contract management, where every agreement drives measurable business value.

## Mission Statement

To simplify and automate the contract lifecycle through intelligent technology, enabling faster decisions, stronger governance, and scalable growth.

# Challenges Holding Enterprises Back

Discover the hidden risks of outdated, manual contract management

## Fragmented Contract Storage

Disorganized contracts hinder retrieval, causing missed information and inefficiencies.

## Manual Risk Review & Analysis

Traditional contract reviews rely on manual effort, causing delays and missed risks.

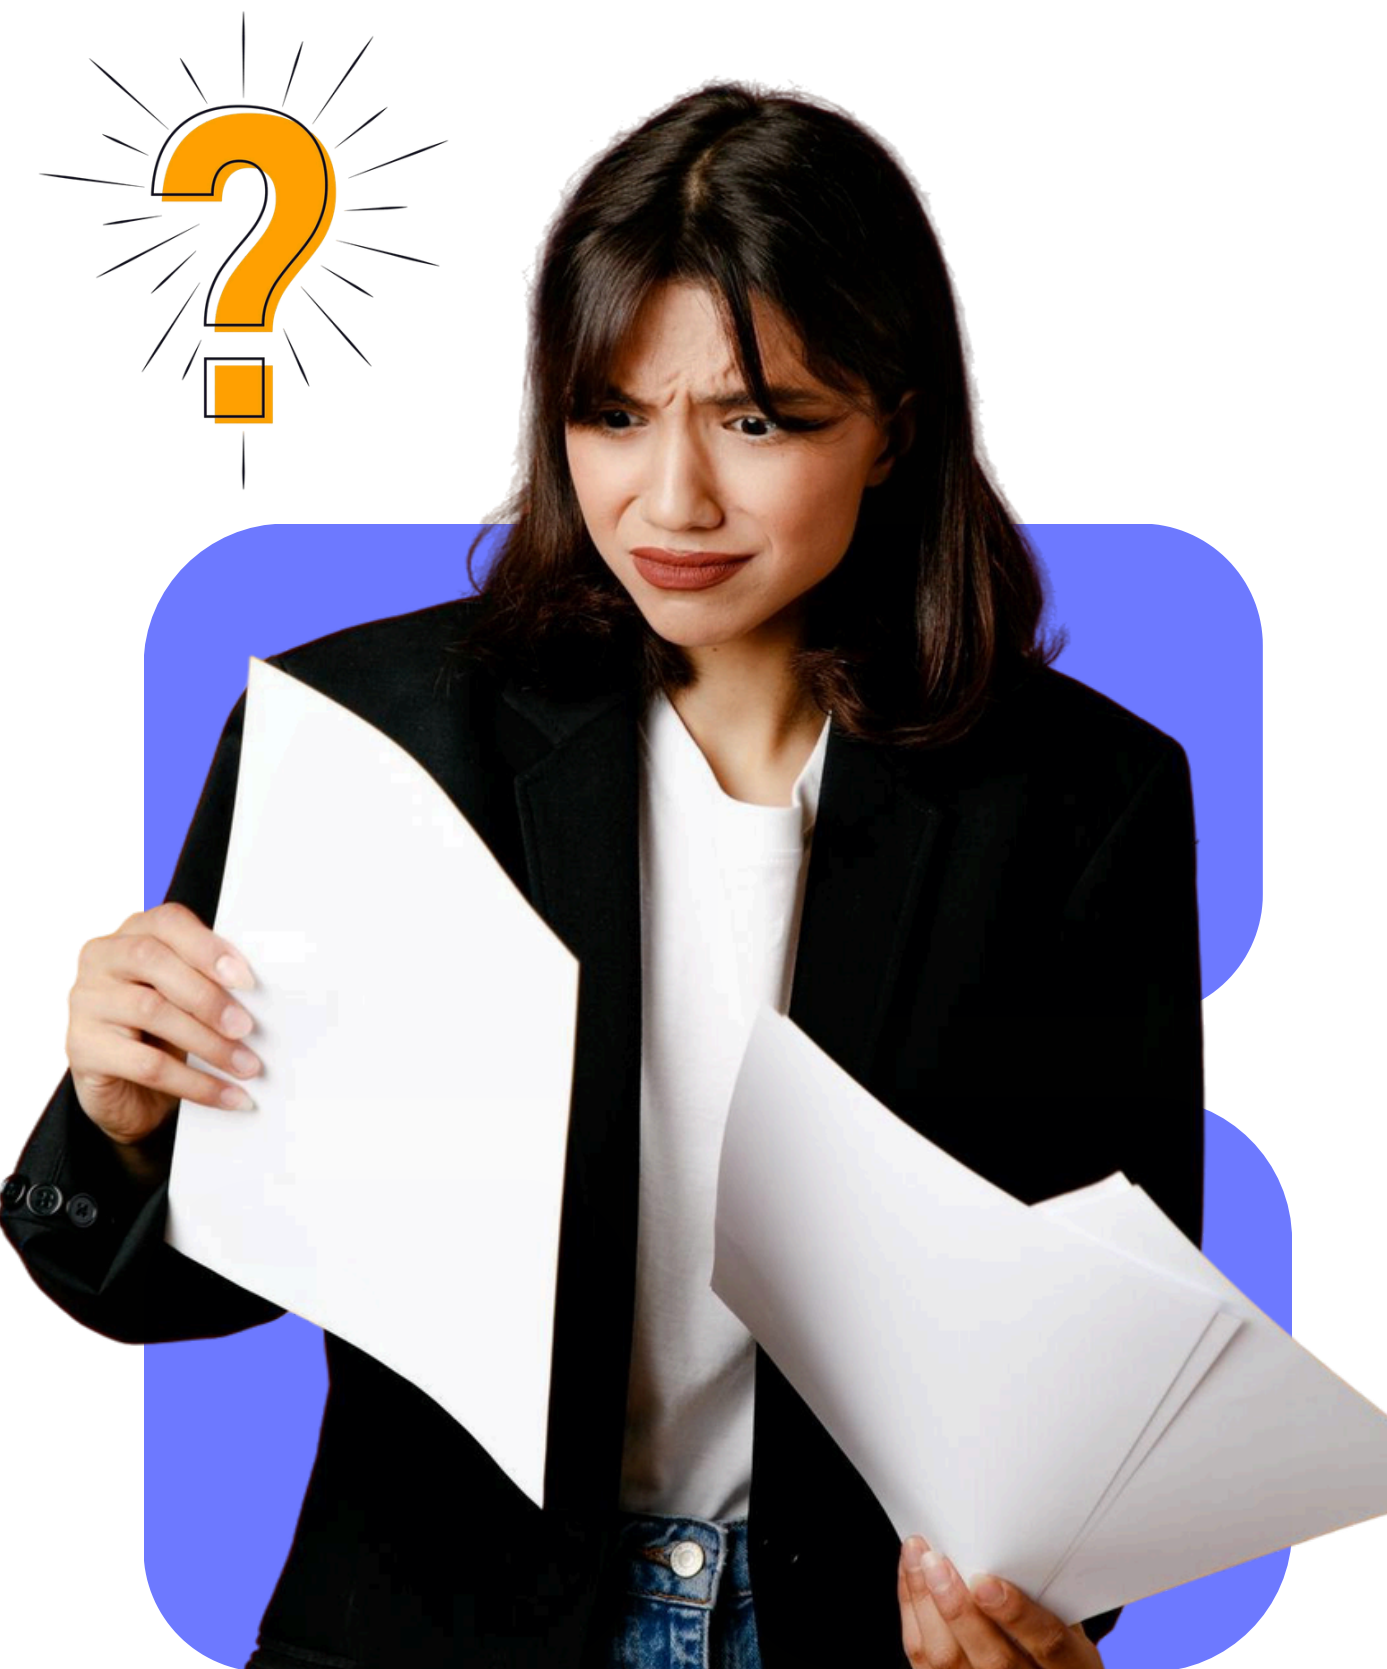

## Poor Visibility into Contract Status

Organizations often lose revenue by missing deadlines due to challenges in tracking contract progress and renewals.

## Limited Cross-Team Collaboration

Disconnected workflows between legal, sales, & procurement cause conflicts & delays.

# Our Intelligent End-to-End CLM Solution

A centralized platform designed to automate, control, and optimize every stage of the contract lifecycle.

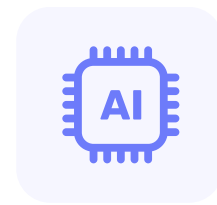

## Centralized Repository

Secure, searchable contract storage.

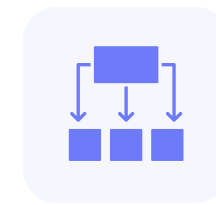

## Collaborative Drafting

Real-time editing with version control.

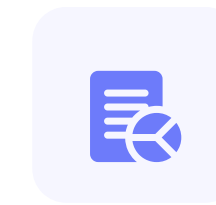

## AI Risk Insights

Detect risks and deviations instantly.

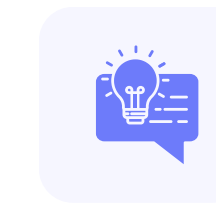

## Smart Workflows

Configurable approval automation.

## Contract Analytics

Actionable performance insights.

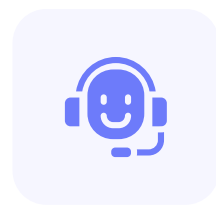

## Clause Intelligence

Context-aware clause suggestions.

## Contract Visibility

Track status and milestones.

## AI Assistant

Instant contract answers.

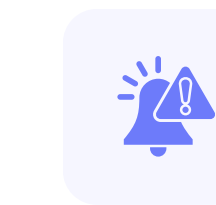

## Digital Execution

Seamless e-signature integration.

## System Integrations

Connect ERP and CRM platforms.

## Automated Alerts

Stay ahead of deadlines.

# AI-Powered Contract Intelligence

Leverage artificial intelligence to reduce risk, improve accuracy, and accelerate contract decisions.

## Intelligent Clause Analysis

Automatically identify risky, missing, or non-standard clauses across contracts.

## Meta Data Extraction

Extract key contract details accurately from uploaded documents.

## Smart Contract Summaries

Generate quick, easy-to-understand contract summaries for faster review.

## Risk & Compliance Insights

Detect potential compliance gaps and contractual risks proactively.

## Faster Review & Approvals

Reduce manual effort and accelerate contract decision-making.

# CLM Use Cases Across Key Business Roles

Tailored contract workflows designed to meet the needs of every stakeholder.

## Legal

Standardize contracts with control and compliance.

## Education

Manage institutional agreements with clarity.

## Banking

Secure, compliant contract management.

## Sales

Close deals faster with streamlined contracts.

## HR

Simplify employee contracts and renewals.

## Real Estate

Simplify employee contracts and renewals.

## IT

Control vendor contracts and SLAs.

## Healthcare

Securely manage healthcare agreements.

# Enterprise-Grade Security & Compliance

Built with robust security controls to protect sensitive contract data.

## Role-Based Access Control

Ensure users access only what they're authorized to.

## Audit Trails

Track every action for transparency and accountability.

## Secured Authentication

Strong authentication for all contract actions.

## Compliance Ready

Designed to support regulatory and legal standards.

## Data Encryption

Secure data at rest and in transit.

## Data Privacy & Protection

Safeguard sensitive information with strict privacy and data protection controls.

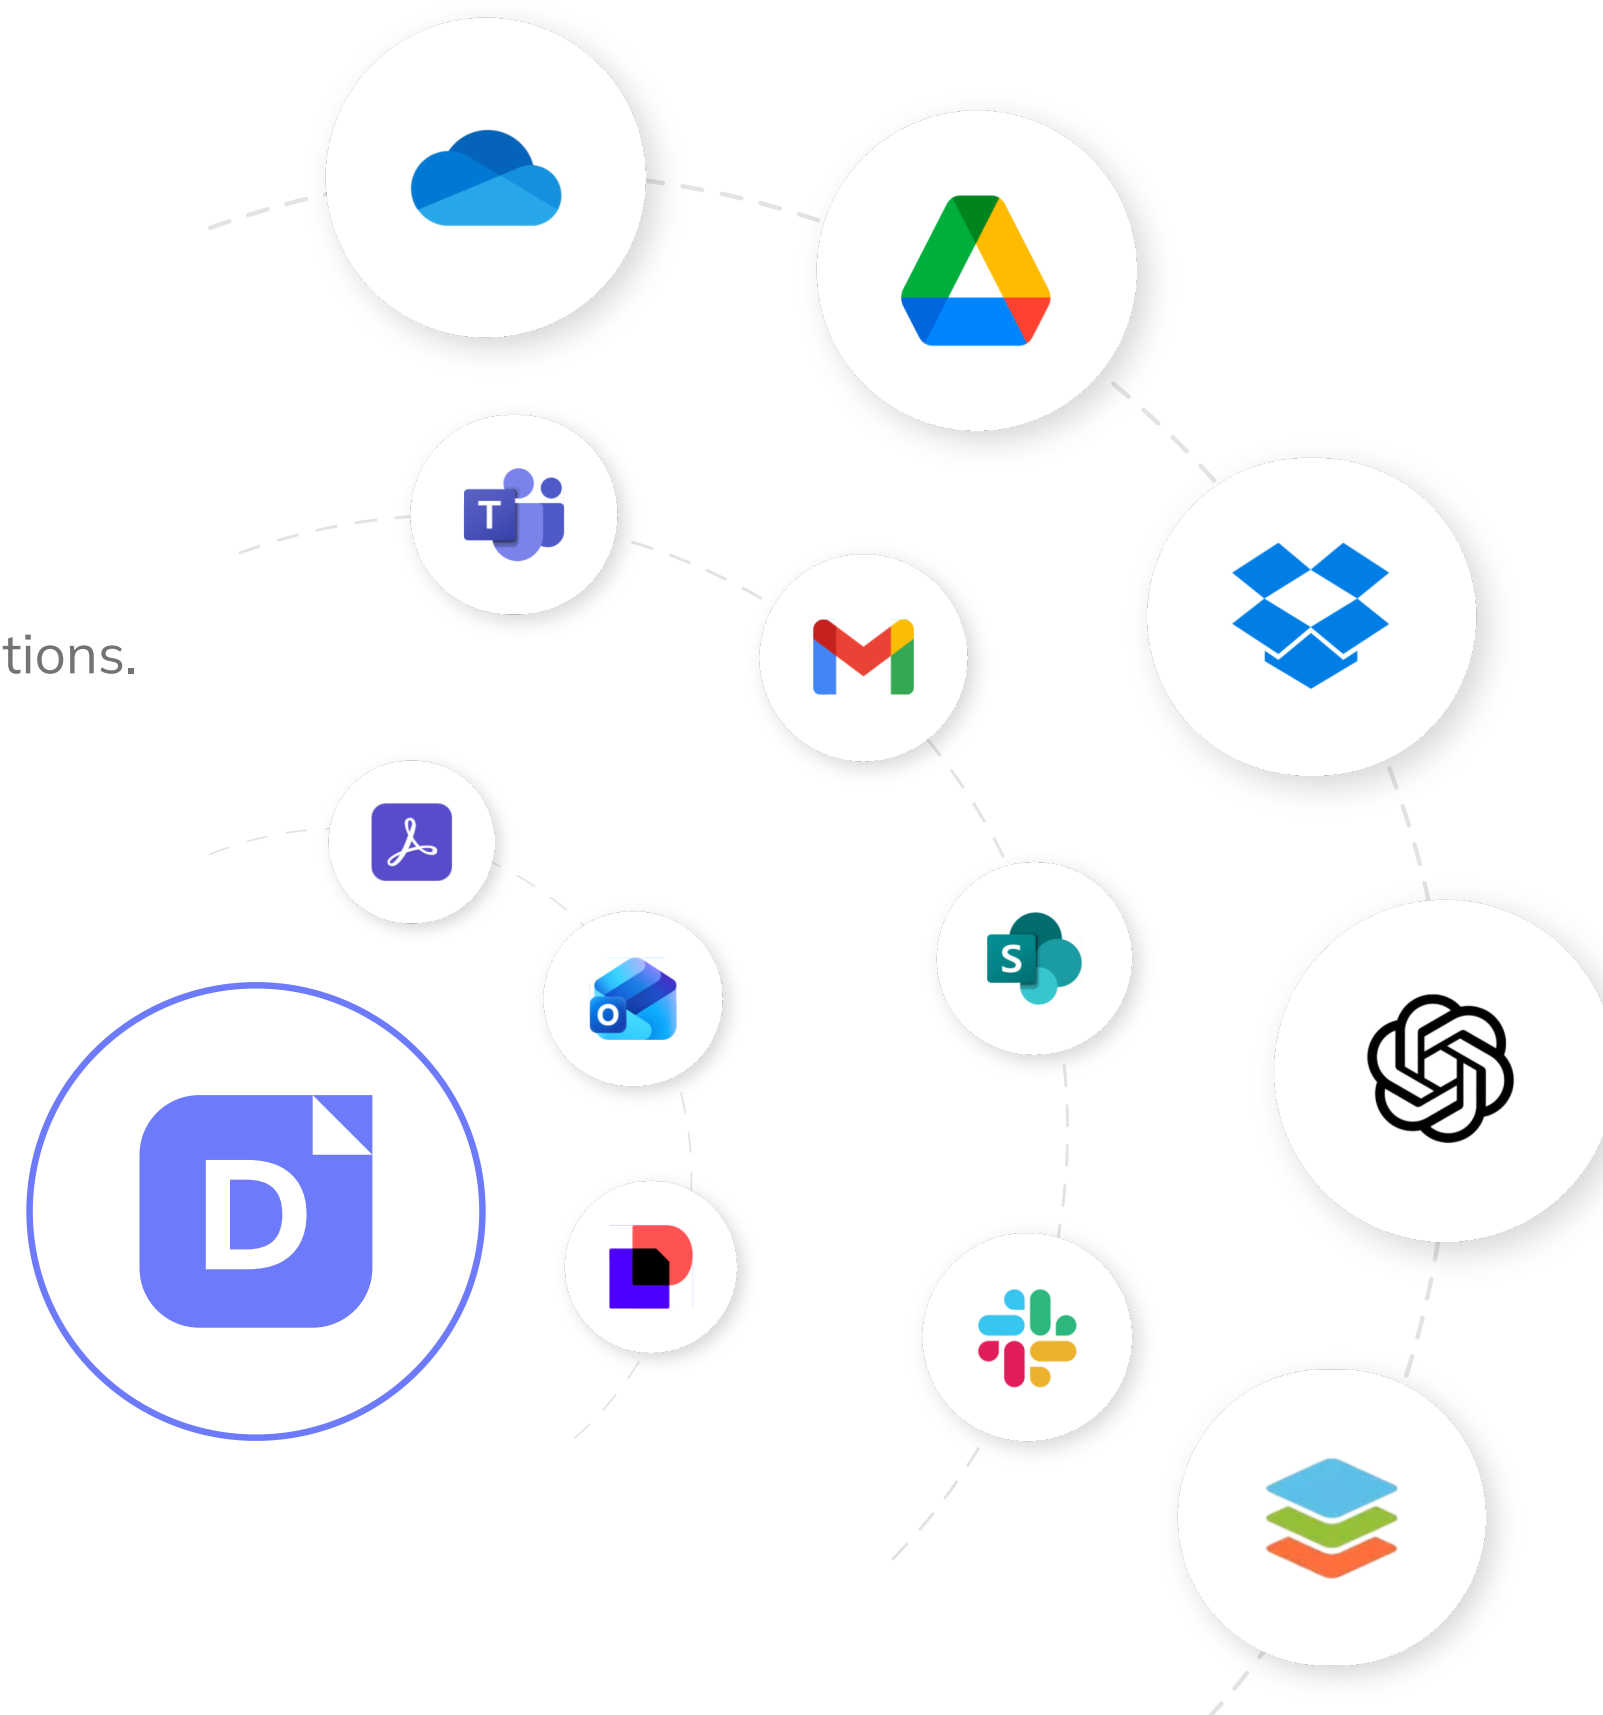

## Global Security Standards

# Integrations that Power Contract Excellence

Connect Doqzy to your enterprise systems to unify contract data, streamline approvals, and drive intelligent, end-to-end contract operations.

With **12+ powerful integrations**, Doqzy aligns with your existing enterprise stack to centralize data, streamline approvals, and enhance cross-functional collaboration—without disrupting your current workflows.

# Seamless Implementation & Onboarding

A structured, guided approach to ensure fast adoption and long-term success.

01

## Quick Platform Setup

Rapid system configuration aligned with your business and contract workflows.

02

## Data Migration Support

Secure migration of existing contracts and documents into the CLM platform.

03

## Workflow & Role Configuration

Setup of approval flows, user roles, and access controls as per organizational needs.

04

## User Training & Enablement

Guided training sessions to ensure teams adopt the platform confidently.

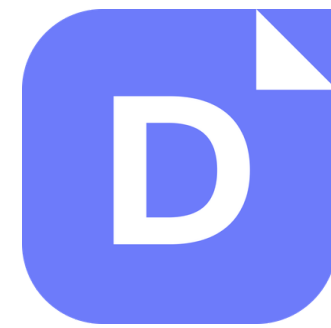

05

## Go-Live Assistance & Validation

Dedicated support during launch to ensure smooth operations and accuracy.

# Thank You

---

## We appreciate your time and interest.

Thank you for taking the time to explore our **AI-Powered Contract Lifecycle Management platform**. Our goal is to help organizations **streamline contract processes, improve compliance, and gain complete visibility** across every stage of the contract lifecycle.

We partner closely with our customers to deliver **measurable value, operational efficiency, and confident decision-making** so your teams can focus on what matters most: driving business growth.

We look forward to the **opportunity to support your contract transformation journey**.
